TIPS TO KEEP YOUR CHILD'S TEETH HEALTHY

- 1. BRUSH:** Make sure to brush your child's teeth with fluoride toothpaste twice a day, every day.
- 2. FLOSS:** At age 4, begin flossing your child's teeth daily to remove plaque between teeth and the gum line.
- 3. DENTAL EXAMS:** Your child's first dental visit should be at age 1. From then on, take your child every 6 months.
- 4. EAT HEALTHY:** A healthy diet is essential for healthy teeth and gums. Make sure to limit foods and drinks that are high in sugar content.
- 5. PREVENT CAVITIES:** Ask your child's dentist about sealants which are an effective barrier against tooth decay.

For more information regarding oral health, contact your OCHS Health Services Department: (714) 241-8920
